

Enhanced Gypsum

**POWERED BY AGRI GROW A HUMIC ACID THAT IS
AVAILABLE AT HIGH AND LOW PH LEVELS IN THE SOIL**

KF Fertilizer has enhanced gypsum with KF Agri Grow, a potent combination of soluble calcium and sulfur, along with a powerful blend of KF Agri Grow. This blend offers numerous advantages for crop health and yield, including enhancing root structure, improving nutrient utilization, boosting soil properties such as water retention, and increasing the population of beneficial soil microorganisms.

Guaranteed Analysis

Calcium (Ca)	18.0%
Sulfur (S)	15.0%
Calcium Sulfate Dihydrate (CaSO ₄ · 2 H ₂ O)	86.0%
Calcium Sulfate (CaSO ₄)	60.0%
Agri Grow.....	8%
Lignin.....	2%

**Available in Coarse Grade {210 SGN} and Micro
{100, 150 & 80 SGN} 40/b bags and 2,000lb bulk
bags or bulk**

Benefits

Improves soil structure
Increases nutrient exchange and retention
Stimulates microbial growth
Improves nutrient absorption
Stabilizes pH
Increases stress tolerance
Increases root development
Improves seed germination
Helps to prevent Al toxicity
in the soil

Application Rates

- TO MAINTAIN OPTIMUM GROWING CONDITIONS
Coverage 8300 sq ft. Apply 6 lbs per 1000 sq ft or 300 lbs per
acre through the growing season.
- TO improve water penetration of compacted soils: Coverage 4000
sq ft. Apply 12.5 lbs per 1000 sq ft or 550 lbs per acre.

To assure complete and even coverage, apply at half rates in two directions.
Do not apply near water, storm drains or drainage ditches. Do not apply if
heavy rain is expected.
